

## **BORDER CROSSING INFORMATION**

### **INSURANCE**

Hammerking highly recommends obtaining a Mexican Insurance policy on any vehicle crossing the border into Mexico. There are many options at the border and online.

For this event Hammerking has partnered with Baja Bound. They are quick, easy, and everything can be done online before you leave home. <https://www.bajabound.com/us/>

### **IMMIGRATION**

Mexican Immigration requires all foreigners entering Mexico for a period of over 3 days to fill out a form. This form can be accessed at <https://www.inm.gob.mx/fmme/publico/solicitud.html>

If you are staying less than 7 days, it is free. More than that it is around \$30. You must have a passport or passport card to obtain an FMM.

We strongly recommend downloading and filling out this form before your travels so only the form stamping at the border will be required making your entry quicker and with no forms to be filled at the immigration desk.

U.S. and Canadian citizens are now asked to carry a passport, passport card or other authorized form of documentation, like an Enhanced Drivers License, Sentri, NEXUS or FAST pass to return to the U.S. Crossing with a birth certificate and a picture ID like a driver's license is still allowed but may create delays.

### **RACE CARS AND CHASE VEHICLES**

All race vehicles must bring some form of documentation, be it license plates/bill of sale or fabrication if available. We understand most race vehicles do not have a factory chassis or vin number, so even though it is not a specific requirement it could come in handy.

### **TIRES AND GASOLINE**

Crossing gasoline is PROHIBITED. Only the gasoline in the race gas tanks is allowed (in the car's fuel cell).

When it comes to tires for the race car, so far you can bring as many spare tires as needed, but only 4 can be brought in tax free, from the 5<sup>th</sup> spare mounted tire on, there will be a tax charge per tire depending on the tire price (around 15 dlls per tire). We are working on getting permission for more tires to be allowed to be crossed without charge, but will be informed in time if we can get this done.

## BORDER CROSSING LOGISTICS CARAVAN

The city and CODE OFF ROAD will be supplying a couple of courtesy escorts from the border to San Felipe on specific dates and hours, we recommend racers set up a rendezvous point in the US and drive up to the border as a group, this way we can expedite the border crossing, have a city official or race volunteer help at the border and have an escort/guide all the way to San Felipe.

All though caravans are suggested they are not required, any Ultra4 race car, chase truck or team can cross the border at any time and should have no issues getting across the border and to San Felipe.

The caravan estimated days and times of departure from the US will be:

PLACE: Walmart parking lot at 2540 Rockwood ave, Calexico, CA, 92231

CROSSING: East Border Crossing 1699 Carr Rd, Calexico, CA, 92231 (closes at 2 PM)

### DATE AND TIMES

Wednesday – Meet at Noon, 12:30 departure

Thursday – Meet at Noon, 12:30 departure

### PARTS AND TOOLS LIST

When it comes to parts and tools, an itemized list is required for all race and chase vehicles bringing in parts. We are enclosing an items list mockup or dummy to be used as an example. They could focus on checking this parts lists more than immigration and race cars. The more you itemize on the list, the better.

ULTRA 4 RACING RACE TEAM PARTS LIST	
race car #	
name	
QTY	DESCRIPTION
1	transmissions
3	shocks
7	mounted tires
1	axles
1	radiator
1	brake kit
2	light bars
6	radios
2	computers
2	nitrogen tanks
1	dump can
1	margarita blender :)
1	welders
2	box of small parts (steering box, lubricants, spark plugs, starters, belts etc.)
2	general tool chests
	Etc....
